Last week Chevron Chemical Company made the county a gift of the Zip seeder that county farmers have used for the past two years.

So make plans to use this machine or similar equipment to renovate pastures or add clover to grass lots this fall.

We're advised of the potential danger of using sewage sludge of unknown identity on gardens and agricultural crop lands. It is reported that some sewage sludge contains large amounts of cadmium and could be hazardous to public health when used as an agricultural fertilizer.

Cadmium, a toxic heavy metal, has been classified by OSHA as a suspected carcinogen and FDA has recommended that sludges containing more than 20 parts per million of cadmium not be used on cropland. Some sludges contain seven times the recommended amount of cadmium.

So if you are using sewage sludge, better be sure it complies with the criteria established.

An updated report on Fire Cured and Dark Air-Cured Tobacco sales and production was received this week.

Our competitors in Kentucky and Tennessee sold by auction 4.9 million pounds for a record $138.09 per hundred. In the same area county sales were 27.8 million pounds, averaging $143.12. The average was $35 above the '75 crop.

Type 21, our tobacco averaged $117.57 per hundred for 5.3 million pounds - - up $14.60 from a year earlier.

Just a side light - - for Type 21 tobacco auction fee is 75c per hundred and commission or gross sales is $3.00. The closest sale cost to ours was $4.75. It would be a good bet that our sales costs will increase for the next marketing season.

Beef cow-calf operators need to utilize the Beef Cattle Improvement Program to measure their progress. There are always excuses for not becoming part of the program - - but seldom good reasons.

The failure to be involved in a program of measuring the productiveness of your cows is to cheat yourself and family of a higher income. This year, 1977, is the time to begin weighing the calf crop. Currently five producers are doing this. The cost is relatively low - - for 50 cows - $20.00 and up to 100 cows $25.00.

Sure, it takes time; it takes time to manage anything well, but if you're in calf production to get a profit, use the tools available to you.
